

Shilo Hadad

Full-Stack Product Developer | SaaS Builder | Web & App Engineer

CONTACT

- Israel
- Open to Remote Opportunities
- shilohdhd1@gmail.com

CORE STACK

- React / Next.js
- JavaScript / TypeScript
- Node.js / FastAPI
- Firebase / Supabase
- Flutter / React Native
- Vercel / Render / Netlify

PRODUCT FOCUS

- SaaS platforms
- Dashboards & workflows
- Landing pages
- API integrations
- Automation systems
- Production deployment

PROFESSIONAL SUMMARY

Product-focused Full-Stack Developer building scalable websites, SaaS platforms, mobile applications, and business systems from idea to production. Experienced in frontend development, backend systems, UI/UX, cloud deployment, APIs, automation, real-time systems, and growth-focused product development. Strong ability to lead full product lifecycles including planning, design, development, deployment, optimization, and iteration.

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS

Backend: Node.js, FastAPI, REST APIs, authentication systems, Firebase, Supabase, databases

Mobile: Flutter, React Native

Cloud & Deployment: Render, Vercel, Netlify, cloud hosting, production environments, domain & SSL configuration

AI & Automation: AI workflows, automation systems, API integrations, real-time logic systems, multi-agent concepts

UI/UX & Product Design: Figma, responsive design, modern interfaces, landing pages, conversion-focused UX

Marketing & Analytics: Google Ads, lead generation systems, analytics integration, conversion tracking, landing page optimization

Workflow: Git, GitHub, deployment pipelines, debugging, production updates

Scalability & Reliability: Scalable architecture, performance optimization, modular structure, secure deployment practices

CURRENT PRODUCTS

Sleepy - Business Management Platform

Founder & Full-Stack Developer

- Built product architecture from concept to production
- Developed dashboards, workflow systems, and business-side interfaces
- Managed frontend, backend logic, deployment, and product direction

LANGUAGES

- Hebrew - Native
- English - Professional Working Proficiency

WORK STYLE

- Remote independent work
- End-to-end ownership
- Fast self-learning
- Clear technical communication
- Business and growth thinking

PROJECTS

Finance Application - Currently Building

Full-Stack Developer

- Developing scalable backend systems and cloud-connected services
- Designing user-focused interfaces and modern application flows
- Working with real-time logic, APIs, and modular architecture
- Focusing on performance, reliability, and future scalability

Matchmaking Management System - Currently Building

Developer

- Creating management dashboards and operational workflow systems
- Developing scalable architecture and automation-focused logic
- Designing clean and intuitive user experiences
- Structuring responsive systems for future platform growth

Web Design & Development Services

Freelance Full-Stack Developer

- Developed responsive websites and conversion-focused landing pages
- Integrated APIs, analytics, forms, tracking systems, and automation workflows
- Managed cloud deployment, optimization, domains, SSL, and production environments
- Combined development, UI/UX, branding, marketing, and business thinking

ADDITIONAL STRENGTHS

- Product-oriented mindset
- Strong analytical thinking and problem-solving skills
- End-to-end product execution
- Systems thinking and scalable architecture mindset
- Experience collaborating in remote development environments
- Fast adaptation to new technologies and workflows
- Business and growth understanding
